## **Introduction**

This document details population and household information relevant to the Houston, Crosslee and Linwood multi-member electoral ward sourced from Scotland's Census 2011, published by the National Records of Scotland in various releases since 2012. The document is split into seven sections: General Population, Equality and Human Rights, Marital and Civil Partnership Status, Economic Activity, Household Information, Transport, and Health and Care.

## Summary

- Houston, Crosslee and Linwood is situated in a central western position within Renfrewshire, and shares borders with the Bishopton, Bridge of Weir and Langbank, Johnstone North, Kilbarchan and Lochwinnoch, Johnstone South, Elderslie and Howwood, Paisley North West, and Erskine and Inchinnan wards.
- The ward incorporates the town of Linwood, and the villages of Houston and Crosslee, with attractions such as the Phoenix Retail and Industrial Estate and the On-x sports facility.
- Approximately 16,000 people live in the area, in slightly less than 7,000 households.
- There are more females (51.96%) in the ward than males (48.04%).
- The area has a smaller proportion of working-age population compared with the Renfrewshire total.
- 98% of the population are White; 35% of the population identify with the Church of Scotland with 24% Roman Catholic.
- Less than 1% of the population have any skills in Gaelic.
- 49.6% of people aged 16 and over in Houston, Crosslee and Linwood are married.
- At the time of the census the main industries were wholesale and retail trade, human health, and manufacturing.
- Higher proportions of all education levels from standard grade to degree and above.
- Lower proportion of single adult households with higher levels or married couple households.
- Almost three-quarters of all household spaces are houses or bungalows, with approximately 71% owned outright or with a mortgage.
- Overall proportion of households renting is 27% but level of Council rentals is low at 8%.
- 72% of all households have at least one car or van, and the most common method of travel to work is by car or van.
- Proportionally more female lone parents in employment than male lone parents.
- A lower proportion of all households are not deprived in any dimension than across Renfrewshire.
- General health levels are better than across Renfrewshire with 83% of people believing they have 'Very Good or Good Health'.
- 71% of people have no long-term health conditions.
- Approximately 10% of people provide unpaid care.

## Section One – General Population

Table 1 illustrates the total number of households, and the total number of people living in Houston, Crosslee and Linwood. There are almost 7,000 households in Houston, Crosslee and Linwood, which equates to 8.45% of the total number of households in Renfrewshire. There are almost 16,000 people that live in Houston, Crosslee and Linwood, which equates to over 9% of the Renfrewshire population.

*Table 2: Gender of all people in Houston, Crosslee and Linwood*

Houston, Crosslee and Linwood has a fairly younger population in proportion to the rest of Renfrewshire, as seen in Table 3. From ages 5 to 19 the proportion is higher within the ward than it is throughout Renfrewshire. It is also apparent that there is a larger proportion of 45 to 59 year olds and 65 to 74 year olds within Houston, Crosslee and Linwood compared to the Renfrewshire average.

*Table 5: Working-age people in Houston, Crosslee and Linwood*

In Table 6, five-year age bands of all people in Houston, Crosslee and Linwood are illustrated, separated by gender. There are more people in the 45 to 49 age band in Houston, Crosslee and Linwood than in any other age band (1,411), with almost 54% of them female. It can be seen from the table that there are generally a higher proportion of men aged over 70 in the ward than there are across Renfrewshire. In every age band from age 30 onwards, there is a higher proportion of females than males in Houston, Crosslee and Linwood, which mirrors the Renfrewshire representation. The age band with the closest split between the male and female population in the ward is 50 to 54, with 49.92% male and 50.08% female. This equates to 648 males and 650 females in Houston, Crosslee and Linwood.

To summarise, there are generally less working-age people in Houston, Crosslee and Linwood compared with the rest of Renfrewshire, while there are proportionately more elderly adults or young people under 18 than the whole of Renfrewshire.

## Section Two – Ethnicity and Religion

Houston, Crosslee and Linwood have a near identical proportion of ethnic groups to the rest of Renfrewshire. There are a slightly higher proportion of white people in the ward than there are throughout Renfrewshire, while there are a lower proportion of people from the Asian, Asian Scottish or Asian British group within Houston, Crosslee and Linwood compared with the Renfrewshire average. Tables 8.1 and 8.2 develop this further, by looking at the total number of males and females across each ethnic group broken into age bands.

## Section Four – Economic Activity

Tables 13 to 15 highlight the number of working age people across Houston, Crosslee and Linwood by their level of economic activity, industry and occupation in the week leading up to the 2011 Census. Should you seek the most up to date picture, details can be found at <http://www.nomisweb.co.uk/>.

The Census defines Economic Activity as “*whether or not a person aged 16 and over was working or looking for work in the week before census. Rather than a simple indicator of whether or not someone was currently in employment, it provides a measure of whether or not a person was an active participant in the labour market.*”<sup>1</sup>

Within Houston, Crosslee and Linwood, over 14% of people aged 16 to 74 were in part-time employment compared to the Renfrewshire average of 13.22%. However, there was a smaller proportion of people in the ward in full-time employment than there was throughout Renfrewshire. A higher proportion of people throughout Houston, Crosslee and Linwood were self-employed or retired, while there was a lower rate of unemployment within the ward than there was throughout Renfrewshire. A similar proportion of people in the ward are economically active compared with the whole of Renfrewshire; there are more men in full-time employment than women, while more women are in part-time employment or are looking after the family at home.

*Table 23: Deprivation dimension of all households in Houston, Crosslee and Linwood<sup>3</sup>*

<sup>3</sup>The dimensions of deprivation used to classify households are indicators based on four selected household characteristics. A household is deprived in a dimension if it meets the following conditions:

1. Employment: a person in the household aged 16 and over who is not a full-time student is either unemployed or long-term sick or disabled.
2. Education: no person aged 16 to 64 in the household has a highest level qualification of level 2 or above, or no person aged 16 to 18 is a full-time student.
3. Health and disability: any person in the household has 'bad' or 'very bad' general health, or has a long-term limiting health problem or disability.
4. Housing: the household's accommodation is either overcrowded (with an occupancy rating of -1 or less), is in a shared dwelling or does not have central heating.

## Section Six - Transport

The most common method of transport used by working age people of Houston, Crosslee and Linwood is by driving a car or van. This method is used by over 63% of all people in the ward, compared with approximately 60% of all people across Renfrewshire. There are lower proportions of people in Houston, Crosslee and Linwood that walk to work or get a train to work, compared with the Renfrewshire average. However, it can be seen that there are higher proportions of people in Houston, Crosslee and Houston that get the bus or are passengers in cars or vans to work compared with the rest of Renfrewshire.
